

Office Automation (OA) System

Prepared by :
Sabrina Ali

PROJECT OVERVIEW

Current Challenges:

Manual approval process, paper-based forms, slow turnaround, and difficult tracking & reporting.

Proposed Solution:

Web-based OA Approval System with login, multi-level workflow, dashboard, notifications & reports.

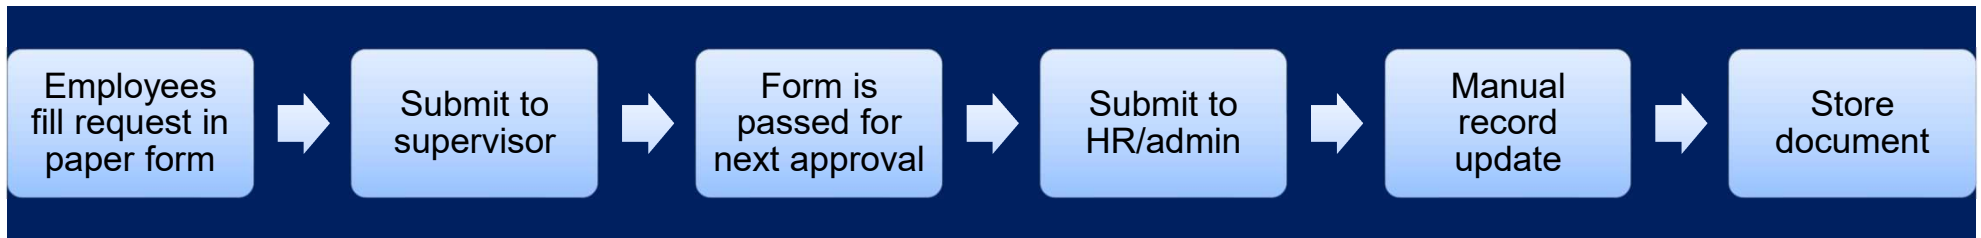

Expected Benefits:

Faster approvals, paperless workflow, improved productivity, better transparency & easier tracking.

Proposed solution

Current process

Proposed process

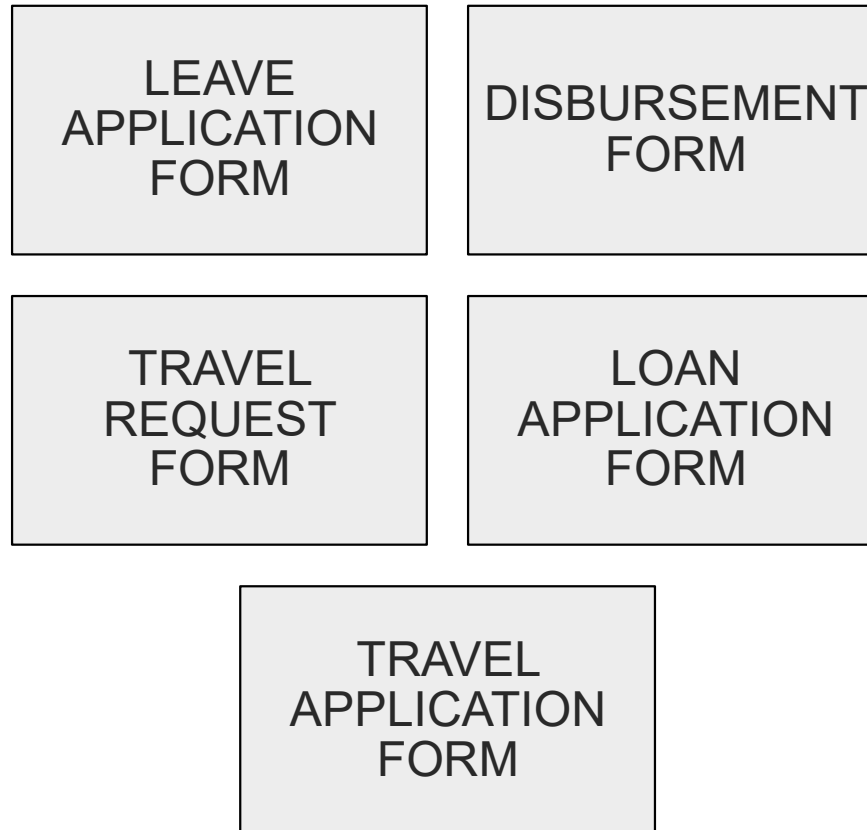

Project Objective

- To design user friendly user interface for Office Automation (OA) system.
- To develop functional web-based user interface that enable employee to submit and manage request.
- To develop digitized office automation system that replace paper-based process.
- To automate employee request and approval workflow based on predefined hierarchy.
- To provide real-time tracking to employees request status.
- To automatically retrieve employee information based on employee ID.
- To automate business trip allowance calculations based on travel period.

Login page

The login page has a light blue background. At the top center is the Focusinsight logo. Below it, the text "OA Approval Portal" is displayed in a bold, dark font, followed by "Sign in to access your workspace" in a smaller, lighter font. The login form is a white rounded rectangle in the center. It contains two input fields: "Employee ID*" with a placeholder "e.g. EMP001" and "Password*" with a placeholder "Enter your password". Below the password field is a checkbox labeled "Remember me" and a link "Forgot password?". At the bottom of the form is a blue "Sign In" button. At the very bottom of the page, in small text, is the copyright notice "@2026 Focusinsight Sdn. Bhd. All rights reserved".
